CONGRESSIONAL.

Teller Following Up
the Monometalists.

AN IMPORTANT BILL SIGNED.

Stanley, the Explorer, Laid
Up With Gastritis.

An Exciting Ohio Congressional
Convention.

Congressional Proceedings.

WASHINGTON, July 11.—Teller introduced a joint resolution declaring it to be the determined policy of the United States to use both gold and silver as full legal tender money, and instructing the President to invite the Governments of the Latin Union countries, and such other nations as he may deem advisable, to join the United States in a conference to adopt a common ratio between gold and silver for the purpose of establishing the international use of bi-metallic money and securing a fixity of the value between those metals, the conference to be held at such place as may be mutually agreed upon by the Executives of the Governments joining in it; and when, in the judgment of the President of the United States, a sufficient number of nations shall have entered into such international arrangement, he shall deem the ratio so fixed to be the existing ratio in the United States.

The President is to appoint not less than three nor more than five commissioners to attend such conference on the part of the United States, who are to receive \$2,500 and expenses.

The resolution was referred to the Finance Committee.

Wilson of Iowa offered a resolution, which was referred to the Committee on Foreign Relations, calling on the Secretary of State for information on the subject of an American citizen, Thomas T. Collins, being deprived of his rights, liberty and property at Manila, in the Philippine Islands, and as to what action is being taken in regard to that matter.

The Senate proceeded to the consideration of the Senate bill to establish a United States Land Court and provide for the settlement of private land claims in New Mexico, Wyoming, Arizona, Utah, Nevada and Colorado, such claims being by virtue of Spanish or Mexican rights.

The bill was discussed until 2 o'clock, when the shipping bills were in order as unfinished business, and Gibson addressed the Senate.

HOUSE.
The House Committee on Military Affairs directed a favorable report on the bill to revive the rank of Lieutenant-General of the army.

Favorable reports were also ordered on the bills authorizing the Secretary of War to employ twenty acting chaplains in the army, and the one granting the Rio Grande Southern Railroad Company the right of way across the Fort Lewis, Colorado, military reservation.

The conference report on the silver bill has been submitted to the House.

McKenna of California called up a private bill for the relief of Charles Murphy of California, and, after a short discussion, the bill was passed—yeas 100, nays 69.

AN EXCITING CONTEST.

COLUMBUS (O.), July 11.—There was a supposition when the Democratic Congressional Convention for the sixteenth district, in session at Orrville, adjourned last night, that matters would be harmonized and the nominations made during the early balloting this morning. This was not the case, the convention having great difficulty in settling upon a man to put against McKinley.

The first ballot this morning, the 38th, stood: Monot 53½, Stilwell 46½, Warwick 34, Zimmerman 41, Lewis 7, Welty 7 and Sherick 7.

On the 47th Warwick took the lead, having 57 votes, but an attempted stampede to him failed to carry and his vote fell back.

A motion to adjourn until September 3d failed to secure a second, and called forth cries of "no," showing a determination to hang together until the contest is ended.

Monot and Warwick were close together on the 54th ballot, the former still holding his 53½ and the latter having pulled up to 51.

Signed by the President.

WASHINGTON, July 11.—The President has approved the legislative, judicial and executive appropriation bill.

Should Be Sent Over the Bay.

SAN FRANCISCO, July 11.—Herman Luckhardt was convicted to-day on a charge of vagrancy on the complaint of his father, C. A. Luckhardt, proprietor of the Nevada Metallurgical Works. Young Luckhardt, it is alleged, has stolen about \$30,000 worth of jewelry and plate from the family at different times.

A Murderer and a Cannibal.

DUBLIN, July 11.—Intelligence has reached here of a horrible affair at Ballyneale. John Hart murdered his mother and chopped her body to pieces, and when discovered Hart was found lying beside the remains, eating a portion of them.

Grievances To Be Investigated.

LOUISVILLE (Ky.), July 11.—The striking brakemen and switchmen of the Louisville and Nashville roads returned to work this afternoon at the old wages, pending an investigation of their grievances by the management.

Stanley Confined to His Bed.

LONDON, July 11.—Stanley is suffering from a severe attack of gastritis and is confined to his bed. It is feared that his marriage, which was arranged to take place at Westminster Abbey to-morrow, will have to be postponed.

Damaged by Fire.

PHILADELPHIA, July 11.—The brewery of the Henry Miller-Brewing Company, on Thirty-first and Jefferson streets, was damaged by fire this morning to the extent of \$100,000. Two men were badly hurt.

Bar silver, 106½.

LOCAL INTELLIGENCE.

A Runaway.

This morning about 10 o'clock a team belonging to Mr. Bailey and brother, took it in his equine head to make a spurt along the Plaza, which he evidently mistook for a portion of the race course. He sped along at a 2:40 gait, passed the merry-go-round, the vicinity of which evidently intoxicated him. The driver was thrown to the bottom of the vehicle, but nimbly regained his seat and the control of the reins and animals.

A Narrow Escape.

At about 11 o'clock this morning, as the employees of the Electric Light Company were engaged in raising the fifty-foot pole to hold the light at the intersection of Sierra and Fourth streets, the guys suddenly gave way, and the pole fell with a tremendous crash to the bottom of the vehicle. Several of the employees came very near being killed, and others were more or less scratched.

Lost a Finger.

This morning about 10 o'clock a young man named Thomas Murphy, engaged in brick moulding at Burke's brick yard, received an injury to his right little finger necessitating amputation at the end joint. The wound was caused by the heavy iron brick mould of his comrades falling on the finger and crushing it to a jelly. Dr. Thoma was called in attendance.

BREVITIES.

Will Roth, nephew of Mrs. Chevington of Reno, and Flip Fanning, both of Virginia City passed through here this morning on their way to Montana.

J. W. Guesford, for a number of years local passenger conductor on the line of the S. P. R. R., departed this morning on a health-giving tour, to be gone on leave of absence.

Captain Griffin of Peavine is as busy as a bee after his return from San Francisco and his hibernating in the Peavine mountains. He will rattle the old dry bones of Peavine in a short time.

NEWS NOTES.

The Vermont Assessor's annual report will show a marked depreciation in the value of farming lands.

"Willie" K. Vanderbilt's white-marble villa promises to outdo in splendor every other house in Newport.

A report from New York is that lemons have not been so scarce and high priced for years as they are at present.

A Pennsylvania maiden committed suicide the other day because she was prevented from going to a strawberry festival.

An Iowa man who was caught in the edge of a cyclone recently had his coat sleeve torn off at the shoulder by the wind, but he escaped bodily harm.

The four largest concerns in the country engaged in manufacturing labels have made a combination which is to lead to a consolidation of their business interests.

For the first time in several years the colored race is unrepresented in the West Point Military Academy. There are only four colored officers in the army.

Horses with fine silk parasols over their heads, have been a common sight in Chicago during the torrid weather that has prevailed a great part of the time for two weeks.

Minnesota boasts of a girl stage-driver. She is Jessie Carson, and handles the ribbons over two horses between Osage and Park Rapids. In winter the teams are doubled.

"Weak and weary" describe the condition of many people debilitated by the warm weather, by disease or overwork. Hood's Sarsaparilla is just the medicine needed to build up and strengthen the body, purify and quicken the sluggish blood, and restore the lost appetite.

RAILROAD DISASTER.

A Michigan Town
Burned.

CLOAK MAKERS TO ARBITRATE.

Death of Jim Cusick, Heenan's Trainer.

Three Murderers Dangle From
the Scaffold.

Murderers Hanged.

BIRMINGHAM (Ala.), July 11.—This afternoon Alfred Cooper (colored) was executed for the murder of Jeff Googer. He confessed his guilt. His neck was broken.

NEW ORLEANS, July 11.—William Johnson (colored), who murdered his paramour, Octavia Dillon, alias Mary Banks, on April last, was hanged to-day. His neck was not broken, and he died of strangulation.

VANCOUVER (Wash.), July 11.—Edward D. Gallagher was hanged here this afternoon for the murder of Louis Mar, near Lower Cascades, last November.

Getting Down to Business.

MILWAUKEE, July 11.—The great body of Knights of Pythias, aside from those engaged in the prize drills, are leaving the city.

The Supreme Lodge, now that the turmoil of the encampment is over, are preparing to get down business, which will probably last a week or ten days. To-day's session was devoted to routine business.

This afternoon the Hastings (Mich.) division was awarded the first prize for drill, \$1,000, and the Erie division the second prize of \$500.

Americans in Corea.

NEW YORK, July 10.—The World prints the following from Yokohama: Seoul has been occupied by American marines, and Corea is now virtually in the hands of Americans. The United States steamer Swatara lies off the city flying the Stars and Stripes, and developments are anxiously watched, for the American naval authorities here have taken a great responsibility, and there is a probability that if the internal trouble takes a serious turn they will have to fight their way out of the country.

A Disastrous Blaze.

ST. LOUIS, Mich., July 11.—A dispatch from Ithaca, this morning states that a most disastrous fire raged in that town last night and that a total of 28 buildings were burned. Ithaca is the county seat of Gratiot county, with a population of two thousand people. The town does considerable manufacturing, and is a prosperous place.

Twenty-nine buildings with their contents were consumed. Loss, \$28,500.

Death of Jim Cusick.

NEW YORK, July 11.—James Cusick, at one time one of the best known sporting characters in the country, is dead. During the gold fever he went to California and discovered John C. Heenan, then entirely unknown. He brought him to New York in 1858, and arranged a fight with John Morrissey, which took place at Long Point, Canada, in October, 1858. Cusick afterwards seconded Heenan in his memorable fight with Tom Sayers.

Military Nominations.

WASHINGTON, July 11.—The President sent to the Senate the following nominations: Colonel Alexander J. McCook of the Sixth Infantry, to be Brigadier-General; Major Augustus G. Robinson, Quartermaster, to be Deputy Quartermaster-General, with the rank of Lieutenant-Colonel.

Educational Suggestions.

SARATOGA (N. Y.), July 11.—The American Institute of Instruction passed resolutions favoring an educational exposition at Chicago at the time of the Columbian Exposition, endorsing temperance education in the public schools, and commending Federal aid to education.

To Be Arbitrated.

NEW YORK, July 11.—A Board of Arbitration has been decided upon to settle the difficulties between the cloak makers and the manufacturers.

Letter Carriers at Work.

LONDON, July 11.—Affairs are becoming more quiet among the letter carriers, and they are performing their duty as usual to-day.

A Terrible Death.

CHICO, July 10.—News was brought to Chico last evening of a fatal accident that had taken place at the ranch of John Fritter, near Dayton, in which his son, Isaac F. Fritter, was dragged to a terrible death. Young Fritter was engaged in unharnessing the horse in the stable-yard and had just removed the bridle preparatory to putting on a halter, when the animal started to run. The bridle was jerked upward and securely fastened around the young man's legs. He was jerked from his feet and the horse started on a mad pace around the stable-yard, dragging the young man after him. Efforts were made to stop the animal, which were only successful after some five or six minutes' running. An examination was made of the boy's wounds, but a glance showed that he was past all human aid, and he expired a few minutes afterward.

He was a bright young man, aged 16 years 6 months, and resided on the home place with his relatives. The sad accident has cast a gloom over the community in which he lived. The funeral took place this afternoon at 3 o'clock at Dayton.

Five Women Slaughtered.

BINGHAMTON (N. Y.), July 11.—Mrs. Thomas Beahan and Mrs. Henry Van Duser, injured in a railroad accident near Owego last night, by which three women were instantly killed, died four hours after the accident.

Will be paid to any competent chemist who will find, on analysis, a particle of Mercury, Potash, or other poisons in Swift's Specific (S. S. S.).

AN EATING SORE.

HENDERSON, Tex., Aug. 23, 1889.—"For eighteen months I had an eating sore on my tongue. I was treated by the best local physicians, but obtained no relief, the sore gradually growing worse. I concluded finally to try S. S. S., and was entirely cured after using a few bottles. You have my cheerful permission to publish the above statement for the benefit of those similarly afflicted." C. B. McLEMON, Henderson, Tex.

Treatise on Blood and Skin Diseases mailed free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

SSS.

HENRY M. STANLEY

IN DARKEST AFRICA

The complete story of Stanley's recent thrilling adventures and the discovery of his long-lost friend, Dr. Livingstone, will appear for the first time in the book written by himself, entitled "In Darkest Africa." Do not be deceived by any of the so-called "Stanley books" now being offered as "genuine" and "authentic." To no one of these has Stanley contributed a line.

There is no question about this statement being correct in every particular. We guarantee it, and will give particulars on application.

In order not to be misled, see the imprint of CHARLES SCRIBNER'S SONS.

And that the contracting agent carries a certificate of agency from us.

The Views of a Financier.

D. O. Mills is the owner of a vast fortune, of which he was both the architect and builder. It was acquired in clean and creditable ways, and its acquisition was often coincident with the construction of works and development of industries which afforded remunerative employment to hundreds of workers. His sagacious and patient labors in aiding to rehabilitate the Bank of California justly earned for him the respect and gratitude of the people of this coast, and his promotion of many industrial and commercial enterprises, and his frequent, generous and unobtrusive contributions to public purposes have fairly gained for him a high place in the public esteem. He is necessarily conversant with the wants and conditions of this coast, and his very large and exceedingly well-managed property interests in Nevada make him peculiarly fitted to judge wisely upon all financial questions likely to affect her people. For all these reasons the opinions of Mr. Mills upon the pending financial and economic problem will necessarily have, and should have, great weight with all candid and thoughtful men. It is to be regretted that Mr. Mills permitted his conclusions upon the subject of free coinage to find their way to the public through the hurried and crude account of them given by a reporter on Wednesday last. We feel sure that he was only partially, and maybe incorrectly, reported, and we hope that in justice to himself and his friends in Nevada he will spare the time to give to the public a clearer and more authoritative exposition of his views; and if he find no more desirable medium, the columns of the GAZETTE are open to him for such purpose.

Mr. Mills is reported by the Examiner as saying that the passage of a free coinage bill would have been detrimental to the country at large because it would have "induced the influx of foreign silver and so increase the value of gold," and he thinks this would be especially detrimental to Nevada and Colorado because of the competition that would ensue between Nevada silver and foreign silver.

It will suggest itself to the friend of free coinage—among whom we soon hope to count Mr. Mills—that the only inducement which free coinage would offer—that is not now offered to foreign silver producers—to seek a market in the United States for their white metal would be the advance to par in its value, which free coinage would at once bring about. The law which passed the Senate yesterday, and which receives the endorsement of Mr. Mills, will only be of value to silver producers in so far as it tends to advance the price of silver, and any advance in the price of silver, however produced, will be just as likely to bring foreign silver here as would free coinage. Mr. Mills is quite right in saying that an increase in the value of gold would be "objectionable" to coast interests, and he might have added to the interests of the entire country, if not of the civilized world, for an increase in the value of gold is but another name for a further decrease in the value of silver, and that would be calamity to all except the "gold bugs" with which fraternity we are not at all class Mr. Mills.

The statement imputed to Mr. Mills that free coinage would not benefit Nevada and California because it would "bring in foreign silver in competition with ours" and so have a "detrimental effect upon the home product" we think must have been misinterpreted by the reporter. Free and unlimited coinage, Mr. Mills must know, means that the United States will take all the silver offered it from whatever source and pay \$1.29 per ounce for it. Of course, under such conditions there could be no "competition."

If it were seriously apprehended that we might be visited by a flood of foreign silver it would be easy to guard against such calamity by imposing an import duty, and we submit that if such danger would exist—in lesser degree—with the bullion purchasing law, provided such law advanced the price of silver beyond the London quotations, and unless it does advance the price of silver of what use is the law?

SCIENTIFIC SUNDRIES.

FRENCH doctors are reported to have discovered that the essence of cinnamon, when sprinkled in the room of typhoid fever patients, kills the bacteria within twelve hours and prevents the disease from spreading.

To give an idea of the kind of telephone cable which would be required to work under the ocean it has been calculated that the copper core would have to be as large around as a flour barrel, and the insulation the diameter of a hog-head.

EPIDEMICS, such as influenza, are said to arise when the supply of ozone in the air is insufficient. To counteract this Dr. Forster, of Berlin, has recently advocated the artificial supply of ozone to the air of towns and thickly-populated districts.

DR. WEISMAN, a German biologist, is trying to show that artificial modifications of living forms can be transmitted from one generation to another. He has cut the tails of some nine hundred white mice in the hope that they will breed a race of mice without tails.

PHOTOGRAPHY has apparently disproved the theories of the old-school meteorologists, who maintained that lightning never turned back in its path. An examination of lightning photography shows that a flash not only turns back sometimes, but tangles itself into a kind of knot.

In the investigation in New York as to electrical matters an expert declared that the number of volts which could be used without danger to life varied greatly. A horny-handed man would be able to take perhaps two thousand volts, while another could not take five hundred.

STRAW is now about to be employed on a large scale for the making of gunpowder. The straw is pulverized, chemically treated and then finished in granular form for use. The new explosive is said to be one hundred and fifty per cent. stronger than an equal weight of ordinary gunpowder and much superior in every respect.

The prize of forty thousand francs offered by the French Academy for some certain test of death, looking to the prevention of being buried alive, was given to a physician, who announces that on holding the hand of the supposed dead person to a strong light, if living, a scarlet tinge is seen where the fingers touch, showing that the blood continues to circulate, there being no scarlet when the subject is really dead.

COLOR-BLINDNESS is a congenital defect, and is incurable. The man who was born with it must submit to its limitations as long as he lives, and is simply playing ostrich when he tries to deceive himself or others into a belief contrary to this. Some color-blind individuals suffer under greater disabilities than others, but a true color-blind person is never sure to select either green or red correctly.

GENERAL BREVITIES.

In the New Hebrides fifty years ago there was not a Christian. Now it is said there is not a heathen!

In spite of the fact that modern actors are spoken of as temperate men, most of them are still partial to a drama too.

The greatest trial of patience is a stammering barrister examining a stut-ting witness in the presence of a deaf judge.

The experiment of treating typhoid fever by prolonged immersion of the patient in water has been tried with gratifying success.

Mrs. GLADSTONE's extraordinary energy is like that of her husband, and increases with years. She has never taken a more active part in public affairs than since she passed her seventy-fifth birthday.

A MAN named Catoni, a giant above seven feet high and proportionately stout, with an enormous head, has just died in Italy. Before his death he sold his skeleton to the Anatomical Museum at Rome for \$2,000.

NINETY-THREE thousand Englishmen, 57,000 Irishmen and 17,000 Scotchmen emigrated to the United States in 1889; 22,000 English, 2,000 Irish and 3,000 Scotch went to Canada; 23,000 English, 2,000 Irish and 2,000 Scotch went to Australia; while to "all other places" went 24,000 English, 2,000 Irish and 1,000 Scotch. The totals for the year show 104,000 English emigrants, 64,000 Irish and 25,000 Scotch.

A CONSIDERABLE sum of the Russian revenue is annually spent in payment for the corpses of wolves. The official estimate is that no less than 170,000 of the creatures are roaming about at large. Last year the inhabitants of the province of Vologda killed 45,000 of the brutes, and in the Casan district 31,000 were killed. The wolves destroyed 213 human beings in the course of the last twelve months.

GEORGE SAND's library was lately sold in Paris. A few of the volumes were rendered valuable by the autograph inscriptions; for the rest, the principal interest attached to them was the fact of their having belonged to the novelist.

MOBERLEY BELL, the new manager of the London Times, is the author of two volumes on Egypt, namely, "Egyptian Finance" and "From Pharaoh to Fellah." The first-mentioned work is mainly statistical, but in the latter volume there is much lively description, clever satire, and political criticism.

LYDIA BERTHA VON SUTNER, a German author, has just published a book entitled "Down with your Weapons." It points out that wars have killed so many men who might have become husbands and fathers that women ought to oppose the military system. This false position of affairs she attributes mainly to the wrong views taught in history.

The literary ability of Mrs. Julia Ward Howe's family is not confined to her daughter, whose charming novels are so well known, for her son, Henry M. Howe, has just completed a scientific work of great value. For four years he has been engaged on a book entitled "The Metallurgy of Steel," in which he discusses that perplexing question of "What Steel is?" Mr. Howe is a graduate of Harvard, and is a mining engineer by profession.

Man's and Woman's Greatness. A man's greatness makes his family great; a woman's greatness makes her family insignificant.

MISCELLANEOUS.

Pure Blood

It is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other insidious enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores. "My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

Can Walk as Well as Ever. Hood's Sarsaparilla is the best medicine I ever saw for scrofulous humor. It has done its work more than satisfactorily." WILLIAM SANDERS, Rockdale, Milan County, Texas.

Hood's Sarsaparilla Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.
